TEN MILLION DOLLAR LOSS

(Continued from page 1.)

Many Freak Accidents.

The cyclone caused many freak accidents. Some houses were unscathed while others adjoining were crumpled like eggshells. In one section of the city the lower story of a house was demolished, the upper part settling in its place. Trees were wrenched up by the roots and driven through brick buildings.

After the storm throngs of people stood on the streets and wept as they watched firemen and the police bearing out corpses of relatives from the debris. In one part of the city four members of one family were buried in burning wreckage but all were saved by the firemen.

A heavy rain which followed the cyclone saved many buildings threatened with destruction by fire.

It is impossible at this time to estimate the damage done by fire following the storm. The Idlewild Club building at 24th and Lake streets was wrecked by the cyclone and then burned.

The Auditorium and the Y. M. C. A. buildings were opened to refugees this afternoon.

The bodies of four members of the Daniels family have been recovered. A dog held four men away from his master's body for half an hour. It lay upon his mangled form and snapped and growled at approaching persons.

The Union Pacific railroad company has donated \$5,000 for the relief of the sufferers, and all civic and social organizations are calling on their members for clothing.

The frantic and grief-stricken relatives of the dead and missing are beseeching the rescuers for some word of the cyclone victims. Persons who watched the storm from start to finish insisted today that they distinctly saw the body of a man in the mudstrom as it passed over the city.

A special train carrying forty doctors and sixteen nurses, arrived here at 1:30 o'clock this afternoon. The physicians were divided into eight squads and sent to the various hospitals and emergency rooms.

Plank Driven Through Cow.

The bodies of eight unidentified negroes were recovered from Idlewild hall late this afternoon, making a total of fifteen bodies recovered at this point. It is believed more bodies are still buried.

The bodies of Mrs. H. Radtke and her two sons were found in an outlying district this afternoon. They went out to shoot some cattle which were injured in the storm. It is believed they perished in the torrential rain following the cyclone. The bodies were found half-buried in the mud.

One of the cows was found dead nearby with a plank driven through its carcass.

## RUSSIA ADVISES MONTENEGRO TO LET CIVILIANS GO

LONDON, March 24.—Russia has advised the Montenegrin government to accede to Austria's demand and allow the civil population of Scutari to leave the city unhindered, according to despatches received here today. This advice followed the receipt at Cetinje of a thinly veiled ultimatum from Austria in which it was announced that the latter government would take coercive measures unless its demand is at once complied with.

Confident that her second request for the release of civilians will not be refused, Austria has sent a steamer to Scutari to carry away all Austro-Hungarian subjects who may wish to leave. Italy also has demanded that Montenegro allow the civilians to leave Scutari, but it made no threats.

## SEATTLE PROPOSES MUNICIPAL LAUNDRY

SEATTLE, Wn., March 24.—That the city council is considering the establishment of a municipal laundry to be operated by women arrested and sentenced in police court, was brought out Saturday afternoon at a meeting of the finance committee during a discussion of the offer of L. R. Witt, of two lots for the proposed municipal extension to the Westlake market as a public market.

It developed that the appropriation, out of which the money for the necessary alterations to the market buildings would come, provided also for a wash house.

Councilman Wardell told the committee he thought the city should establish a municipal laundry on the second floor of the market building.

"There will be ample room," said Wardell, "and it would cost very little more."

Chief Rummick, in his annual report urged the establishment of one. In his opinion such a thing is very necessary and I am strongly in favor of the council including money for a municipal laundry."
